FOREST NURSERY COMPANY

BOYD BROTHERS, Proprietors

Descriptive Catalogue

Forest and Shade Trees
Ornamental Shrubs
Plants and Roses

McMinnville - Tennessee

Foreword

In presenting this catalog, we wish to express again our sincere thanks to all those who have patronized us so generously in the past.

We conduct our business on the principles prescribed by the Golden Rule, and our many loyal friends and customers prove that this policy is a success. Many valued letters received by us expressing approval of the quality of stock sent, careful packing, and general satisfactory manner of handling the business which has been entrusted to us.

With a sense of sincere appreciation we enter into a new year of business, equipped better than ever for handling our steadily growing trade.

We give our best efforts to grow the finest grade of trees and shrubs; we are not landscape architects, but are always glad to give such assistance as we can to our customers in making the proper selection of what to plant.

Location

McMinnville is located on Sparta branch of N. C. & St. L. Ry., 30 miles from Tullahoma, which is on main line, half way between Nashville and Chattanooga. Our nurseries are 2½ miles southeast of McMinnville. We are glad to have those interested visit our nurseries. Visitors are always welcome.

ORDERS—Write plainly and give **explicit directions** as to address and mode of shipment; otherwise we will forward **according to our best judgment**. All goods travel at purchaser's risk. **We assume no responsibility for the goods after delivery to the forwarding companies.**

We use every care to secure prompt delivery, but we are not liable for delays or damage in transit. Our responsibility in this respect ends upon delivery in good order to transportation company, but we will gladly render all the aid we can in case claim becomes necessary.

CLAIMS, to receive consideration, must be made **within ten (10) days of receipt of goods.**

GUARANTEE—We are very careful to keep each variety true to name as labeled, and are ready at any time to replace, on proper proof, any that may prove otherwise, free of charge, or refund the amount paid, but it is mutually agreed between the purchaser and ourselves that we shall at no time be liable for an amount larger than the original purchase price.

TERMS—Cash with order, unless otherwise arranged. Six per cent interest charged on overdue bills. Five plants at 10 rates; 50 at 100 rates.

All quotations in this list are net for the goods packed—no extra charges for packing and delivering to carriers here, unless otherwise agreed on. Customer pays carriage charges. If delayed, or lost on the road, notify us, and we will do all possible to get it through, or collect claim, but are not responsible for carriers' neglect. We advise Express Shipments, as cost is little more than Freight on small lots, and stock gets through quicker and safer. Light packages can go Parcel Post. We add postage to bill.

Everything is offered subject to being unsold on receipt of order and subject to shortage or failure of crops or other causes beyond control. By placing orders buyers are considered to agree with these terms.

Certificate of inspection will be sent with each shipment.

We are members of the American Association of Nurserymen.

Forest and Shade Trees

The following is our list of deciduous trees (those which drop their leaves in the fall) that we are offering for delivery this Fall and Spring. Nearly all deciduous trees are hardy and will grow well in most any soil.

The planting of well selected trees is a duty each land owner owes to himself and posterity, and a duty which should not be delayed, the sooner planted the longer both yourself and the public may enjoy them.

DECIDUOUS TREES

ACER DASYCARPUM, (Silver Leaf Maple.) It is the color of the leaves that gives the name to this popular maple. The underside of the foliage glistens like silver, while the top is light green. The method of carrying the leaves on the branches seems to make the tree alive with silver and green flashes. The Silver Maple is a rapid grower and a good street and ornamental tree.

	Each	Per 10	Per 100
2 to 3 feet	\$0.25	\$2.00	\$15.00
3 to 4 feet35	3.00	25.00
4 to 5 feet50	4.00	

ACER RUBRUM, (Red, or Scarlet Maple.) A native species, with fine, rounded head; beautiful red blossoms and fruits in Spring; gorgeous Autumnal foliage. Thrives in low or damp places.

	Each	Per 10	Per 100
2 to 3 feet	\$0.25	\$2.00	\$15.00
3 to 4 feet35	3.00	20.00
4 to 6 feet50	4.00	30.00
6 to 8 feet75	5.00	

ACER SACCHARUM, (Sugar Maple.) A handsome shade tree for street and lawn. The leaves are green in midsummer, but later turn to shades of scarlet and orange, making a beautiful specimen tree from spring until fall. The growth is thick, and the tree develops into a large, stately specimen.

	Each	Per 10	Per 100
2 to 3 feet.....	\$0.25	\$2.00	\$15.00
3 to 4 feet.....	.35	3.00	20.00
4 to 6 feet.....	.50	4.00	30.00
6 to 8 feet.....	.75	5.00	

ANDROMEDA ARBOREA, *Oxydendrum Arborea*, (Sorrell Tree). A very ornamental little tree, with handsome foliage that turns a brilliant crimson in Autumn. Panicles of small white flowers resembling those of Lily-of-the-Valley are borne in July.

Silver Leaf Maple (*Acer dasycarpum*).

	Each	Per 10	Per 100

3 to 4 feet.....	.15	1.35	10.00

CATALPA BUNGEI, (Chinese Catalpa). A dwarf form, only 3 to 4 feet high, twice as broad. It is very useful in formal park work when grafted on stems 5 to 8 feet high, forming a pretty dome shaped head of large, soft, heavy leaves. Elegant for lawns, parks and cemeteries.

	Each	Per 10
5 to 6 feet, 1 year heads.....	\$1.50	\$12.50
6 to 7 feet, 2 year heads.....	2.00	17.50

Catalpa Bungei

DECIDUOUS TREES—Continued

White Flowering Dogwood (*Cornus Florida*).

CATALPA SPECIOSA. (Western Catalpa). Also known as the "Indian Bean Tree." one of the quickest and easiest to grow.

	Each	Per 10	Per 100
2 to 3 feet.....	\$0.10	\$0.80	\$ 6.00
3 to 4 feet.....	.15	1.35	10.00

CERCIS CANADENSIS. (Red Bud, or Judas Tree). A small growing tree of irregular form, with heart shaped leaves. It is covered with pink blossoms early in spring before leaves appear.

	Each	Per 10	Per 100
2 to 3 feet.....	\$0.25	\$2.00	15.00
3 to 4 feet.....	.35	3.00	20.00
4 to 5 feet.....	.50	4.00	

CORNUS FLORIDA. (White Flowering Dogwood). Flowers white, produced in spring before leaves appear; very abundant, showy and durable. Foliage grayish green, glossy and handsome; in autumn turns to deep red, making the tree one of the most beautiful at that season.

	Each	Per 10	Per 100
2 to 3 feet.....	\$0.25	\$2.00	\$17.50
3 to 4 feet.....	.30	2.50	20.00
4 to 5 feet, bushy.....	.50	4.00	30.00

DIOSPYROS VIRGINIANA. (American Persimmon). A native of the Southern states, but will thrive and ripen its fruit as far north as the Great Lakes. The tree reaches a height of 20 to 30 feet. The fruit is not large, one half to one inch in diameter, and must be fully ripe to become edible. A valuable ornamental tree. Will thrive on the poorest soil.

	Each	Per 10	Per 100
18 to 24 inches.....	\$0.15	\$1.00	\$ 7.00
2 to 3 feet.....	.20	1.50	10.00
3 to 4 feet.....	.25	2.00	15.00

ELM, AMERICAN WHITE. A noble native tree of large size, wide spreading head and graceful drooping branches. One of the grandest park and street trees.

	Each	Per 10	Per 100
2 to 3 feet.....	\$0.20	\$1.50	\$10.00
3 to 4 feet.....	.25	2.00	15.00
4 to 6 feet.....	.40	3.00	25.00

ELM RACEMOSA. (Cork Barked Elm). It is a native Elm. The bark is very unusual, being

in pronounced ridges all along the trunk and branches, otherwise it is very much like the other elms.

	Each	Per 10	Per 100
2 to 3 feet.....	\$0.20	\$1.50	\$10.00
3 to 4 feet.....	.25	2.00	15.00

HAMAMELIS VIRGINICA. (Witch-Hazel). A strong grower in any soil, but succeeds best in moist places. Remarkable for small, odd, yellow flowers that open just as its leaves are brightening with Autumn tints. Hardy in Canada. Valuable for massing and wild effects.

	Each	Per 10	Per 100
18 to 24 in., branched.....	\$0.30	\$2.50	\$22.50
2 to 3 feet, branched....	.40	3.50	
3 to 4 feet, branched....	.60	5.00	

LIQUIDAMBER STYRACIFUA. (Sweet Gum). This is another of our native trees of rare beauty and great ornamental merit.

	Each	Per 10	Per 100
2 to 3 feet.....	\$0.40	\$3.50	\$30.00
3 to 4 feet.....	.50	4.00	35.00
4 to 5 feet.....	.75	6.00	

LOCUST, BLACK. (*Robinia Pseudacacia*). This is a familiar tree of rapid growth, thriving well in almost any soil and location. Can furnish Black Locust in large quantities in small sizes, if wanted for re-forestering work, write us for special quotation.

	Each	Per 10	Per 100
18 to 24 inches.....	\$0.05	\$0.40	\$ 3.00
2 to 3 feet.....	.07	.60	5.00
3 to 4 feet.....	.10	.80	7.00

LOCUST, HONEY. (*Gleditsia Triacanthus*). A hardy native tree with strong thorns. Its neat, attractive habit suits it for lawn planting, and its ability to withstand shearing enables it to be used for strong hedges.

	Each	Per 10	Per 100
12 to 18 inches.....	\$0.25	\$2.00	\$15.00
18 to 24 inches.....	.30	2.50	20.00
2 to 3 feet.....	.35	3.00	25.00

Catalpa Speciosa

MAGNOLIAS

ACUMINATA. (Cucumber Tree). The tallest of the species growing rapidly into a fine pyramidal tree 60 to 90 feet high. In midsummer, large creamy, white blossoms appear among its deep green leaves, and large cucumber shaped fruits that turn bright crimson succeed them.

	Each	Per 10	Per 100
18 to 24 inches.....	\$0.30	\$2.00	\$15.00
2 to 3 feet.....	.40	3.00	20.00
3 to 4 feet.....	.60	5.00	

TRIPETALA. Named from the whorled arrangement of its great glossy leaves. The white flowers also of great size, open in June and are followed by rose-colored fruit cones. Tree grows to 40 feet.

	Each	Per 10	Per 100
18 to 24 inches.....	\$0.30	\$2.00	\$15.00
2 to 3 feet.....	.40	3.00	20.00
3 to 4 feet.....	.60	5.00	

MAGNOLIA GRANDIFLORA. (Southern Magnolia). This is the grandest of all our native broad-leaved evergreen trees. It is a native of the middle section of the southern states, and succeeds best in a rich soil. Nothing more conspicuous can be seen amongst evergreens when its large white flowers are fully expanded. Their period of blooming begins the middle of April and lasts until August.

	Each	Per 10	Per 100
12 to 18 inches.....	\$0.50	\$3.00	\$25.00
18 to 24 inches.....	.75	5.00	40.00
2 to 3 feet.....	1.00	10.00	
3 to 4 feet.....	1.25	12.00	

MORUS.....(Mulberries). Birds are attracted by the sweet fruits of these small, but quick-growing, ornamental trees. Do not plant close to a sidewalk, as the berries fall during the fruiting season.

RUSSIAN MULBERRY. (Morus Alba). var. Tatarica). A quite hardy, low-growing tree that

Silver Poplar (Poplar Alba)

bears quantities of fruit which attracts the birds.

	Each	Per 10	Per 100
2 to 3 feet.....	\$0.20	\$1.50	\$10.00
3 to 4 feet.....	.25	2.00	15.00
4 to 6 feet.....	.40	3.00	25.00

TEA'S WEEPING MULBERRY. var. Tatarica Pendula. Requires but two or three years to develop into a handsome, weeping tree that will ornament any lawn. The pendulous branches sweep the ground in shining lengths. One of the best weeping trees in cultivation.

	Each
1 year heads.....	\$2.00
2 year heads.....	2.50

NYSSA MULTIFLORIDA. (Black, or Sour Gum). A native tree, especially liked for the gorgeous scarlet coloring of its foliage, and dark blue berries in early Autumn.

	Each	Per 10	Per 100
18 to 24 inches.....	\$0.20	\$1.50	\$10.00
2 to 3 feet.....	.25	2.00	15.00
3 to 4 feet.....	.35	3.00	20.00

OSAGE ORANGE. A hardy tree widely planted for hedges. Stands clipping remarkably well, and forms an almost impenetrable barrier when properly cared for. A valuable tree for posts, the wood being almost indestructible. For large quantities for hedges, get our special quotations.

	Each	Per 10	Per 100
18 to 24 inches.....	\$0.10	\$0.80	\$ 6.00
2 to 3 feet.....	.15	1.25	10.00
3 to 4 feet.....	.30	2.50	20.00

POPULUS—THE POPLARS

Inexpensive, hardy, rapid-growing trees very much in use for quick, or temporary effects. Easy to transplant, thriving under almost every condition.

POPLAR ALBA. (Silver Poplar). A form of the white poplar; a straight tree with silver white leaves. It will grow in most any soil where other trees fail.

	Each	Per 10	Per 100
2 to 3 feet.....	\$0.20	\$1.50	\$10.00
3 to 4 feet.....	.25	2.00	15.00

Tea's Weeping Mulberry

POPLARS—Continued

POPULUS CAROLINENSIS. (Carolina Poplar). An excellent tree where rapid growth is desired. Its upright growth permits of comparatively close planting, which makes this species of poplar useful for screens.

	Each	Per 10	Per 100
2 to 3 feet.....	\$0.20	\$1.50	\$10.00
3 to 4 feet.....	.25	2.00	15.00

POPULAR LOMBARDY. (New Chinese L. Poplar). One of our new Lombardy Poplars; tall grower; branches erect, and closely pressed to the trunk. Foliage dark green.

	Each	Per 10	Per 100
2 to 3 feet.....	\$0.20	\$1.50	\$10.00
3 to 4 feet.....	.25	2.00	15.00

POPULAR NIGRA. (Lombardy). A tall, spiral-like tree, often attaining a height of 80 to 100 feet. It is a rapid grower, distinctly orna-

mental and beautiful, and is much used for screens and in formal plantings.

	Each	Per 10	Per 100
2 to 3 feet, branched....	\$0.20	\$1.50	\$10.00
3 to 4 feet, branched....	.25	2.00	15.00
4 to 6 feet, branched....	.30	2.50	20.00

POPULAR TULIPEFERA. (Liriodendron). A large and stately rapid grown tree, with a narrow pyramidal crown. Leaves bright green and lustrous, turning yellow in autumn. Flowers cup shape, resembling a tulip, greenish yellow blotches with orange. A handsome tree, and one that is deserving of the highest esteem of planters.

	Each	Per 10	Per 100
2 to 3 ft. transplanted....	\$0.25	\$2.00	\$15.00
3 to 4 ft. transplanted....	.30	2.50	20.00
4 to 6 ft. transplanted....	.40	3.50	30.00
6 to 8 ft. transplanted....	.60	5.00	

OTHER DECIDUOUS TREES

SASSAFRAS. A native tree of irregular growth, seldom seen in ornamental plantings, but worthy of more consideration. The distinctive foliage of varied outline assumes beautiful tints in the Autumn, and the horizontal arrangement of the twiggy branches presents a very attractive appearance.

	Each	Per 10	Per 100
18 to 24 inches.....	\$0.15	\$1.25	
2 to 3 feet.....	.20	1.75	
3 to 4 feet.....	.30	2.50	
4 to 5 feet.....	.40	3.50	
5 to 7 feet.....	.50	4.00	
7 to 9 feet.....	.75	5.00	

SYCAMORE, EUROPEAN. (Oriental Plane). A lofty, wide-spreading tree; heart-shaped leaves;

valuable for its handsome foliage and free growth, and every way desirable.

	Each	Per 10	Per 100
18 to 24 inches.....	\$0.30	\$2.50	\$20.00
2 to 3 feet.....	.40	3.50	25.00
3 to 4 feet.....	.50	4.00	30.00

TEXAS UMBRELLA TREE. A distinct form of the China Tree with a dense, spreading, umbrella-like head. Very formal and symmetrical in outline and of rapid growth. Highly prized as a shade tree.

	Each	Per 10	Per 100
18 to 24 inches.....	\$0.15	\$1.00	\$ 7.00
2 to 3 feet.....	.20	1.50	10.00
3 to 4 feet.....	.25	2.00	15.00
4 to 5 feet.....	.40	3.00	

Lombardy Poplar (Poplar Nigra)

Our well selected trees are hardy and will grow in most any soil. Their beauty will increase with the years.

WALNUTS

WALNUTS AND BUTTERNUTS. (Juglans).

All of the species are valuable for lawn, or landscape, and, in addition, for their toothsome nuts. The fruits of the Japanese Walnuts are considered superior to those of the native species, and, in localities where the English Walnut is not hardy, are commended to the attention of orchardists. These hardy and ornamental trees thrive in moist, fertile soils.

BLACK. A native tree of large size and beautiful foliage. The most valuable of trees for its

Japan Sieboldi (Japanese Walnut)

Butternut

timber, brings the highest price in market. Tree a rapid grower, producing a large, round nut of excellent quality.

	Each	Per 10	Per 100
12 to 18 inches.....	\$0.20	\$1.50	\$12.00
18 to 24 inches.....	.25	2.00	15.00
2 to 3 feet.....	.30	2.50	18.00
3 to 4 feet.....	.40	3.00	20.00

BUTTERNUT, or WHITE WALNUT. Native tree producing a large nut. Has a sweet, oily, nutritious kernel.

	Each	Per 10	Per 100
12 to 18 inches.....	\$0.20	\$1.50	\$12.00
18 to 24 inches.....	.25	2.00	15.00

3 to 4 feet.....	.40	3.00	20.00
4 to 5 feet.....	.50	4.00	25.00

JAPAN SIEBOLDI. Perfectly hardy, rapid grower, handsome form, immense leaves; bears young and abundantly. Nuts produced in clusters; resemble butternut in shape and quality; smaller; smooth and thinner shell.

	Each	Per 10	Per 100
12 to 18 inches.....	\$0.25	\$2.00	\$15.00
18 to 24 inches.....	.40	3.00	25.00
2 to 3 feet.....	.50	4.00	

WILLOWS

WILLOW TREES. (Salix). Rapid growing hardy trees thriving in any moist soil. The Willows are valuable and interesting subjects, both on account of their graceful aspect, and showy catkins and bright bark. Wonderful effects may be obtained by grouping or massing their back-grounds with evergreens.

WEeping Willow:	Each	Per 10	Per 100
2 to 3 feet.....	\$0.25	\$2.00	\$15.00
3 to 4 feet.....	.35	3.00	20.00
4 to 6 feet.....	.50	4.00	25.00

CAPREA. (Goat or Pussy Willow). A small tree with upright or ascending branches. Leaves green, relatively large and broad. Catkins very numerous, appearing in early spring before the leaves put out. Handsome in flower and greatly esteemed by reason of its earliness.

	Each	Per 10	Per 100
2 to 3 feet.....	\$0.25	\$2.00	\$15.00
3 to 4 feet.....	.35	3.00	20.00

WILLOW. (Ring-Leaved Willow). A form of willow with curiously curled, or twisted leaves. An interesting tree, attracting attention where ever seen.

	Each	Per 10	Per 100
2 to 3 feet.....	\$0.25	\$2.00	\$15.00
3 to 4 feet.....	.35	3.00	20.00
4 to 6 feet.....	.50	4.00	25.00

PHOTINIA. White Flowers in Corymbs, succeeded by brilliant red fruits and bright Autumn foliage. Useful for natural and tall-growing mass plantings.

	Each	Per 10	Per 100
18 to 24 inches.....	\$0.50	\$4.00	\$30.00
2 to 3 feet.....	.75	6.00	45.00
3 to 4 feet.....	1.00	8.00	

Weeping Willows

We are always glad to give assistance to our customers in making selections of proper varieties. We pack carefully for shipping and keep them true to name as labeled.

Hardy, Deciduous, Flowering Shrubs

As you drive along the road you may be attracted by a broad, well-kept lawn, but the memory of the place will soon be forgotten, unless the lawn and house are framed with well-kept flowering shrubs, which reveals to the student and lover of nature that she has been most lavish with certain species of shrubs in various localities. There are locations which suggest the planting of individual shrubs, which are allowed space for symmetrical development, and in such locations their grace and beauty cannot be surpassed. In groups they can be made to emphasize some feature of the lawn, to screen some unsightly object, or to destroy the strong, stiff lines of foundation walls. They will acceptably cover slopes difficult and expensive to decorate, otherwise. At the edges of the lawn, along walks and drives, or in distant corners, a collection of shrubs may be gathered that will give a succession of bloom from the opening of Spring until frost comes to destroy the flowers. The Spirea, Hydrangea Barberry, and others of like character are effective for grouping, or mass planting, against fences or walls, about the house foundations, or at the borders of the lawn. Tall and quick-growing shrubs, like Dogwood, the Privets, and Philadelphia may be employed to screen buildings, or hide an unattractive view. Or they may be planted to form a hedge, doing away with the common wood, or iron fence. Shrubs provide material of a permanent character for the adornment of property at less cost and more effectively than anything else.

Althea or Rose of Sharon

ALBELIA GRANDIFLORA. A hardy, free blooming shrub with shiny, purplish, evergreen leaves; bears profusion of clusters of tubular shaped flowers about one inch long, white inside, delicate pink outside. Fragrant blooms lasts all summer. Very desirable.

	Each	Per 10	Per 100
18 to 24 inches.....	\$0.75	\$ 5.00	\$40.00
2 to 3 feet	1.00	7.00	
3 to 4 feet	1.50	10.00	

AMORPHA FRUTICOSA. (Common False Indigo). A tall native shrub of very easy cultivation, blooming freely in June. The violet spikes are crowded.

	Each	Per 10	Per 100
2 to 3 feet.....	\$0.25	\$2.00	\$17.50
3 to 4 feet.....	.30	2.50	20.00
4 to 6 feet.....	.50	4.00	

ALMOND. Spring flowering shrubs, gaily in full bloom before the leaves appear. Their growth is dwarf, bushy and compact; slender branched, when in bloom completely hidden by beautiful double flowers of rose, or white, snuggling tight to the twigs. Double pink.

	Each	Per 10	Per 100
12 to 18 in. transplant- ed, bushy	\$0.40	3.50	\$30.00
18 to 24 in. transplant- ed, bushy60	5.00	40.00
2 to 3 feet.....	1.00	8.60	

ALTHEA, or ROSE OF SHARON. These are grand flowering shrubs. There is a wide range of color, and not a day from the middle of July until September—a time when so few other shrubs are in bloom, that Altheas are not aglow with flowers. They have no insect enemies, grow well anywhere, are splendidly suited for shrubby borders, for colony plantings and hedges. The planter who uses them freely makes no mistake. The following colors:

- Anemonoefflora.** Large double red.
- Amplissima.** Double rosy red, early bloomer.
- Ardens.** Double purplish, an old favorite.
- Boulde de Feu.** Double Red.
- Bicolor.** Double white, with red marks.
- Duc de Brabant.** Double dark red, early bloomer.
- Joan of Arc.** Pure white, very double.
- Lady Stanley.** White, shaded rose, semi-double.
- Pulcherimus.** Variegated flower.
- Peoniflora.** White with cherry red center. Very floriferous.

Totus Alba Simplex. Large single, pure white.

	Each	Per 10	Per 100

Almond

SHRUBS—Continued

ARALIA PENTAPHYLLA. Long, slender, gracefully arching branches and bright green, compound foliage. Makes a small tree in time, especially attractive on rocky slopes. Greenish white flowers in long umbels.

	Each	Per 10	Per 100
18 to 24 inches.....	\$0.40	\$3.00	\$25.00
3 to 4 feet.....	.60	5.00	

ARONIA. (Chokeberry). Attractive, perfectly hardy shrubs preferring moist location, but equally good in dry soil. Leaves are smooth, pale green, coloring vividly to red in fall. Flowers are tinted white in numerous small corymbs, succeeded by conspicuous, persistent berry-like fruits.

ARONIA NIGRA. (Black Chokeberry). Dwarf, seldom reaching 6 feet. Its flowers are slightly tinged with red, and its fruits ripen to a shiny jet black.

	Each	Per 10	Per 100
18 to 24 inches.....	\$0.25	\$2.00	\$18.00
2 to 3 feet.....	.35	3.00	25.00

BARBERRY THUNBERGI. (Japanese Barberry). The Barberry Thunbergii can be planted anywhere. It has nothing to do with Black Rust. You need not be afraid to plant the Thunbergii. Invaluable little shrub that fits in with almost every planting. Grows about everywhere, handsome foliage of bright green, oval leaves that turn to most brilliant shades of orange and red in the fall. Slender, graceful branches protected by thorns, are lined with scarlet berries of great attractiveness from early autumn well into winter. Very valuable for low hedge.

18 to 24 inches.....	\$0.25	\$2.00	\$15.00
2 to 3 feet.....	.35	3.00	20.00

ELDER. American, (*Sambucus Canadensis*). The common Elder Berry. A tall shrub with stout stems filled with white pith. The small white flowers come in large flat-topped cymes, fragrant, opening in early summer. Fruit black, very profuse, ripening in August and September. Grows 6 to 8 feet tall. In many parts of Europe they are grown for the purpose of making wine, and are said to be of great value for medicinal purposes in case of stomach disorder. All varieties of Elder are largely planted in parks and gardens to attract birds, which are very fond of the berries.

2 years.....	.60	5.00	40.00

LINDERA BENZOIN, (Spice Bush). An early flowered shrub, growing naturally in Tennessee, and is hardy. Leaves bright green, fading in autumn with intense tones of yellow. Flowers yellow, in early spring, appearing before the leaves. Berries scarlet, in late summer or early autumn. Attains a height of 6 to 10 feet under ordinary conditions.

	Each	Per 10	Per 100
18 to 24 inches.....	\$0.25	\$2.00	\$18.00
2 to 3 feet.....	.35	3.00	25.00

Amoor Privet Hedge

LIGUSTRUM—The Privetts. These grand shrubs are extensively used for hedges, fences and screens and also given space in the shrub plantation for the beauty of their flowers and berries. They are hardy and vigorous, thriving in almost any fertile soil and stand clipping admirably.

Privett produces wood faster than any other shrub or tree. For a hedge that is thick right down to the ground, you must set the plants close together, anywhere from 6 to 18 inches apart. It is sometimes best to set a double row, the plants "staggered" a foot apart in each line. Some people use even a triple row. The lines should be about 8 inches apart. This is the way to make the finest hedges, especially when you want them a couple of feet wide and over 3 feet high. A single row of plants will make a beautiful hedge, but it will not be so thick at the bottom, and will require careful trimming to make it as nice. When possible plow or dig a trench 2 feet wide and 1 foot deep. Don't throw the dirt out; just mix it thoroughly. A horse and harrow or cultivator are the best tools. When you have a fine bed of soil plow a trench in the middle and set the plants in dry soil.

Cut back to within 3 inches of the ground the first season; then each April cut back again to within 6 inches of the previous year's height. This harsh treatment will force a thick leafy growth of twigs and branches right from the ground up. By setting the plants 6 inches deeper than they were in the nursery, each one will have half a dozen or more stems coming out of the ground, and will thus help greatly in keeping the hedge thick at the bottom. The roots should be "puddled" as soon as you unpack them, and if you do not plant at once they should be coated with mud again just before you plant.

Amoor River Northern Privett. Deciduous northern form of Amoor River Privett. This is a very hardy form, of upright growth, similar to the California Privett, but much harder than that variety. Very desirable for hedge or planting in groups. This privett must not be confused with the evergreens or southern form of Ligustrum Amurense.

	Each	Per 10	Per 100

2 to 3 feet.....	.75	6.00	

Viburnum Prunifolium, (Black Haw). A native variety with large, oval leaves which color brilliantly in autumn. Pure white flowers followed by bluish-black fruit.

18 to 24 inches.....	\$0.40	\$3.00
2 to 3 feet.....	.60	5.00
3 to 4 feet.....	.75	6.00

Viburnum (Japan Snowball)

SHRUBS—Continued

Weigelia Rosea

WEIGELIA. This splendid family of shrubs is one of the most useful, and is rarely omitted from any mixed group which will accommodate the height. Most varieties grow quickly to an ultimate height of about 6 to 8 feet, usually with long arching branches. During May, June and July they bear a great profusion of bell-shaped flowers which closely hug the stems.

Weigelia, Candida. Flowers pure white, produced in June and continue to bloom nearly all summer.

	Each	Per 10	Per 100
18 to 24 inches.....	\$0.35	\$3.00	\$25.00
2 to 3 feet.....	.45	4.00	35.00

Weigelia, W. Eva Rathke. The most distinct and one of the most attractive varieties; flowers deep carmine red.

18 to 24 inches.....	\$0.50	\$4.00
----------------------	--------	--------

Weigelia Desboisi. One of the darkest and best of the rose-colored sorts.

18 to 24 inches.....	\$0.30	\$2.00	\$15.00
2 to 3 feet.....	.40	3.00	20.00

Weigelia Hendersonia. One of the strongest growing varieties, with large flowers of deep rose.

18 to 24 inches.....	\$0.30	\$2.00	\$15.00
2 to 3 feet.....	.40	3.00	20.00

Weigelia Rosea. This is one of the most popular of all the Weigelias; a tall growing, vigorous sort with deep pink flowers.

	Each	Per 10	Per 100
18 to 24 inches.....	\$0.30	\$2.00	\$15.00
2 to 3 feet.....	.40	3.00	20.00
3 to 4 feet.....	.60	5.00	

Weigelia Variegated Leaf. Leaves bordered with yellowish white, making the bush very conspicuous the entire season. Pink flowers bloom in early summer.

12 to 18 inches.....	\$0.50	\$4.00	\$25.00
18 to 24 inches.....	.75	6.00	40.00

ROBINIA, LOCUST. Robinia hispida rosea. Rose or Moss Locust. A native dwarf shrub, usually 2 to 3 feet high; very showy, rose-colored flowers produce in racemes during April. A very attractive and showy plant.

18 to 24 inches.....	\$0.25	\$2.00	\$18.00
----------------------	--------	--------	---------

RHUS AROMATICA. (Fragrant Sumach). A short, branchy shrub, from 3 to 6 feet tall, with striking foliage and yellow flowers disposed in clusters along the stems. The red berries mature in June and in autumn the leaves color to brilliant scarlet, making it very attractive.

18 to 24 in. branched.....	\$0.30	\$2.50	\$22.50
2 to 3 ft. branched....	.40	3.50	
3 to 4 ft. branched....	.50	4.00	35.00

RHUS COPALINA. (Shining Sumach). August. Shining, lustrous foliage, which changes to rich crimson in fall. Greenish-yellow flowers. Quite effective.

18 to 24 inches.....	\$0.20	\$1.50	\$10.00
2 to 3 feet.....	.25	2.00	15.00
3 to 4 feet.....	.30	2.50	20.00

RHUS COTINUS. (Purple Fringe, or Smoke Bush). The large masses of misty purplish flowers, which this bears in June, give it the name of Smoke Bush. The leaves change to varying colors in the fall.

18 to 24 inches.....	\$0.30	\$2.50	\$20.00
2 to 3 feet.....	.35	3.00	25.00

RHUS GLABRA. (Smooth Sumach). Excellent foliage, topped in autumn with prominent crimson heads of seed. Fine autumn coloring. Good on rocky, or poor soil.

18 to 24 inches.....	\$0.15	\$1.00	\$ 7.00
2 to 3 feet.....	.25	1.50	10.00
3 to 4 feet.....	.25	2.00	15.00

RHUS TYPHINA. (Staghorn Sumach). Grows generally in bush form to 10 feet in height; the foliage is compound, light green and of large size, and in autumn is brilliantly colored. A most effective plant for grouping in masses, thrives on poor soil.

18 to 24 inches.....	\$0.20	\$1.50	\$10.00
2 to 3 feet.....	.25	2.00	15.00
3 to 4 feet.....	.30	2.50	20.00

Weigelia, W. Eva Rathke

Evergreens

Hardy Evergreens are particularly valuable for use in all classes of ornamental planting in as much as they preserve their graceful foliage and coloring throughout the summer and winter.

ALBELIA GRANDIFLORA.

	Each	Per 10	Per 100
18 to 24 inches.....	\$0.75	\$5.00	\$40.00

1 year	\$0.10	\$0.50	\$ 4.00
2 years transplanted.....	.15	1.25	9.00

Wisteria

Roses

We have only a small list of Roses, but what we offer are field grown, nice vigorous, healthy plants. Every garden should have a space for climbing roses. They are fine for training over arbors, porches, fences and other objects. Make a selection and try a few of them.

American Beauty Rose

VARIETIES:

AMERICAN BEAUTY—The favorite of all roses in climbing form.

AMERICAN PILLAR—A fine shade of pink with clear white eye, very large flowers produced in clusters.

BALTIMORE BELL—Very double, Bluish white flowers in large snowy clusters.

CRIMSON RAMBLER—As a climbing, or running rose, it has no equal. The foliage is rich dark green, flowers bright crimson which remain on a long time.

DOROTHY PERKINS—A splendid climbing rose. The flowers are large, very double, sweetly scented and of a beautiful shell pink.

DOROTHY (White)—Same habits of growth and freedom of flowering as Dorothy Perkins, but with pure white blooms.

DR. VAN FLEET—Flowers full and double of a delicate flesh pink. Desirable for cutting.

DAYBREAK—A rapid grower. Flowers single pink clusters.

EXCELSA—Very double, crimson flowers in large trusses.

EVERGREEN GEM—Hardy; a free grower. Flowers creamy white.

FLOWER OF FAIRFIELD—The new, ever-blooming Crimson Rambler. A strong grower and continuous bloomer. Flowers bright crimson.

LADY GAY—The flowers are of a delicate, cherry pink color, which fades to a soft white.

RAMBLER BLUE—This is a new variety producing flowers of a pale violet blue. Distinctly hardy and a novelty.

RAMBLER (White)—The flowers are the size of a silver quarter, perfectly filled, very fragrant. Color pure white, sometimes tinged with blush. Blooms in clusters.

RAMBLER (Yellow)—A new climbing rose of same class and habit of the Crimson Rambler. Flowers very light yellow.

RAMBLER (Pink)—Possesses the same features as the White Rambler. Pink flowers.

SETIGERA—Our beautiful single Prairie Rose with large, salmon-pink blossoms in great clusters, and large persistent red berries.

TAUSENDSCHOEN, or THOUSAND BEAUTIES. Bright clusters of blossoms varying in color from flushed white to rosy-carmine. A vigorous hardy climber with few thorns.

TENNESSEE BELL—Similar to the Baltimore Bell, but with deeper colored fragrant blooms.

WICHURAIANA (Memorial Rose).—Almost ever-green; flowers small, single, white; of trailing habit. Beautiful for planting on slopes and terraces, which it soon covers with a mass of bright green foliage. On account of its hardiness and glossy foliage, it is used extensively in the North for cemetery planting. The plant is a strong grower.

	Each	Per 10	Per 100
1 year, No. 1.....	\$0.20	\$1.75	\$15.00
1 year, No. 2.....	.15	1.25	10.00

Crimson Rambler Roses

Bush Roses

Sir Thomas Lipton

CABBAGE. Rose color; large size, globular form; very fragrant. A superb variety.

CRIMSON MOSS—Large, full, deep crimson. A fine variety. Charming in the bud.

CHEROKEE—Flowers pure white. A most satisfactory rose for covering rocks, stumps, etc. Choicest of its class.

Madam Plantier

Bush Roses	Each	Per 10	Per 100
	\$0.60	\$ 5.00	\$45.00

MADAME PLANTIER—Pure white, above medium size; full. Produced in great abundance early in the season. Foliage rather small, seven leaflets. One of the best white roses for hedges and for massing in groups.

OLD GARDEN (Tall Red)—One of the choicest brilliant red flowers; fragrant and very satisfactory.

PINK DAMASK—We consider it one of the best pink roses. Beautiful at all times and a free bloomer. It won't disappoint.

RUBIGNOSIA. The well-known Sweetbrier. Highly scented foliage; pink, fragrant flowers and quantities of bright lips. Blooms in June.

RUGOSA (Pink or Red)—Flowers single, of a most beautiful bright rosy crimson, succeeded by large berries of a rich rosy red color, and are a great addition to the ornamental character of the plant. Makes a beautiful low hedge.

SIR THOMAS LIPTON—The best pure white Rugosa rose. Strong and vigorous. Flowers perfectly double and snow white. Absolutely hardy everywhere.

Pink Damask

Ornamental Grasses

There are few things more effective in landscape work than this class of plants. They are strong, rapid growers in almost any soil. During the close of Summer they come into bloom and are most showy and ornamental with their large flower plumes.

EULALIA JAPONICA. Green leaves, broader than those of the following varieties. In the late Summer and early Fall this plant is most attractive with its graceful plumes. Splendid for natural landscapes. Grows 5 to 6 feet high.

5 to 6 feet.....	Each	Per 10	Per 100
	\$0.25	\$2.00	\$15.00

GRACILLIMA (Japan Rush). A beautiful, tall swaying grass, with narrow green leaves and silvery-white midrib. Brown tassels in last Fall and Winter.

	Each	Per 10	Per 100
	\$0.25	\$2.00	\$15.00

VARIEGATA. The long, narrow leaves are striped with white midribs.

	Each	Per 10	Per 100
	\$0.25	\$2.00	\$15.00

Hardy Ferns

These graceful and universally popular plants are of easy culture, and afford a wide range of possibilities, they require very little attention and are very beautiful. We have several varieties here in the mountain but only offer three varieties as follows:

OSMUNDA CINNAMOMEA. Cinnamon Fern. A stately large fern with very large creeping rootstocks. Grows naturally here in the mountain wild. Leaves deciduous, bright green, with numerous branches.

	Each	Per 10	Per 100
Clumps	\$0.20	\$ 1.75	\$15.00

OSMUNDA REGALIS, Royal Fern. A vigorous, tall fern with stout rootstocks bearing a cluster of large leaves.

	Each	Per 10	Per 100
Clumps	\$0.20	\$ 1.75	\$15.00

POLYSTICHUM ACROSTICHOIDES. Christmas Fern. A beautiful evergreen fern with stout rootstocks.

	Each	Per 10	Per 100
Clumps	\$0.20	\$ 1.75	\$15.00

Fruit Trees

We do not grow fruit trees ourselves, but buy them from the most reliable growers in this section, and your order will have our very best attention and will try and fill with fresh dug trees true to name.

APPLES

Delicious Apple

All agreements and contracts are made subject to loss of crop by drought, floods, fire, insects, or other unavoidable causes. All quotations are made subject to stock being sold on receipt of order.

WE STRIVE TO AVOID MISTAKES, but in the event that any nursery stock sold by us should prove untrue to name under which it is sold, we hereby agree on proper proof of such untruthfulness to name, to replace the original order or to refund the purchase price. Except for such liability, and in respect to all nursery stock sold by us, we give no warranty, express or implied, as to description, quality, productiveness or any other matter.

TRANSPORTATION RULES. We have always made it prominent in our printed terms that our goods are sold f. o. b. cars at point of shipment and are at the purchaser's risk while in transit. Because of the present unsettled conditions we wish to emphasize still further that we do not guarantee safe delivery. The ownership of all goods sold by us passes to the purchaser on delivery by us to the carrier and the issuing of a receipt by the carrier ends our responsibility. Any claims for damages should be made promptly to the agent at the point of delivery.

No difference how often you have written us, always give your full Address, and write your Name, Post Office, County and State very plainly. By so doing you will save us much trouble and avoid the possibility of delay and mistake.
